

The internet has an amazing range of information and opportunities online, but how do we separate fact from fiction?

Every year the school participates in **Safer Internet Day**, which provides a great opportunity for the children to explore different issues related to online safety.

Safer Internet Day 2021 is on Tuesday 9th February and the theme is “An internet we trust: exploring reliability in the online world”.

There are plenty of related resources to help parents and carers talk to their children about how to navigate the issue of reliability of information online in a safe, responsible and engaging way.

[Here](#) you'll find fun and engaging activities that parents and carers can do with children of all ages to support this year's Safer Internet Day theme. Work through these activities together to help your child question what they see online and make sense of the digital world.

[This sheet](#) provides parents and carers with useful sources of advice and information, both for general online safety and in particular, for this year's Safer Internet Day theme of 'An internet we trust: exploring reliability in the online world.' It also includes information on how to report online problems.
